

ACKNOWLEDGEMENT

No human being is complete and individual. We are just the shadows of other persons and incidents that actually mould us to what we are. I would like to take this opportunity to express my heartiest gratitude to all the persons (all of them I can't name here) who touched my life and directly or indirectly made this moment possible.

Ma and Pita, who made me dream it and empowered me to pursue, Sara, Tara, Bhaiti, Dimi, Khagen and Shyamol, who believed and nursed it through. I cannot possibly thank you all enough for being. You all are the center of my existence.

I would like to thank Dr. Chitrani Medhi, my research supervisor, for instilling various ideas and her constant guidance, support and inspiration. Above all I would like to thank you madam for bearing me, even though sometimes I was a great pain in neck.

I am grateful to all my teachers for taking the pain of teaching and forging me. The names of Late Susanta Banerjee, Mr Subrata Barua, Sri Sanjoy Sing Rana, Dr. Tapan Thakuria needs to be mentioned here for going those extra miles. I would also like to express my gratitude towards Prof. O. K. Medhi, Prof. K. G. Bhattacharyya and Mr K Borpujari.

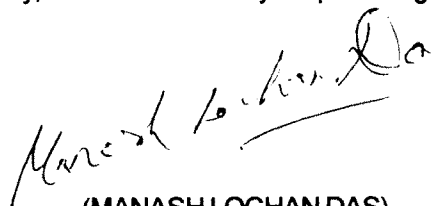

I owe a lot to my colleagues, particularly Mr. K K Rabha, Mr. K Khakhalary, Ms. Dipali Deka, Mr. Pradip Das, Monoj, Surjyada and Dibakar. I am grateful to my friends Homen, Anu, Mohen, Tapan, Bubul, Patni, Jonson, Pradip, Kushal, Dipanker, Bipul, Dr Diganta Das, Dr. Hrishikesh Baruah, Dr. Gunin Choudhury, Md. Reza Mamud and Pankaj for their constant support.

I am indebted to my fellow lab worker, particularly Dr. Pradip Bhattacharyya, Mr. Rituraj Kalita, Raghav, Rajib, Murshida, Bipul and also Nur. I will be ever thankful to you all. Without you people, I am lost.

Last but not the least I would like to thank UGC for granting me the fellowship and facilitating my research and the Department of Chemistry, Gauhati University for providing most needed supports.
